

Ultimate Orde Combination

Gravity Forms plugin is used to create web forms and manage form entries within the WordPress admin.

WooCommerce extension **WooCommerce Gravity Forms Product Add-Ons** used to display Gravity Forms on individual WooCommerce products.

Combine by Gravity Form Based Meta Values

Ultimate Order Combination can combine order automatically with different rules. One of the rules is to combine orders **Gravity Form Product Based Meta Values**.

Turn ON **auto combine** in automation tab and select None / Archive for existing orders.

Existing Orders are the orders placed before the current combined order. You can choose to delete them permanently or move to trash also.
